

MUHAMMAD ABDULLAH CHAUHAN

MERN Stack Developer | Frontend Specialist | AI-Powered Development Workflows

Lahore, Pakistan (On-site / Hybrid) · +92 300 1776007 · raoabdullah11111@gmail.com

linkedin.com/in/muhammadabdullahchauhan · github.com/muhammadabdullahchauhan

PROFESSIONAL SUMMARY

MERN Stack Developer specializing in modern frontend development with hands-on experience building responsive, production-ready web applications for real client projects using React.js and Next.js. Skilled in REST API integration, component-based architecture, and responsive web design. Leverages AI-powered development workflows — including Cursor AI, Lovable, and GitHub Copilot — to accelerate implementation while maintaining full ownership of code quality and architecture decisions. Actively expanding backend expertise within MERN ecosystem including Node.js, Express.js, and MongoDB.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Sass/SCSS, shadcn/ui, Bootstrap, Responsive Web Design, REST API Integration

AI Dev Workflow: Cursor AI, Lovable, v0 by Vercel, Claude, ChatGPT, GitHub Copilot, Gemini, Antigravity IDE

Tools & Platforms: Git, GitHub, VS Code, Postman, Figma, Vercel, npm, Chrome DevTools

Backend (Learning-MERN): Node.js, Express.js, MongoDB, Mongoose, REST API Development, JWT Authentication

Expanding: TypeScript, Redux, React Query, Full MERN Architecture

PROFESSIONAL EXPERIENCE

Frontend Developer Trainee → Junior Frontend Developer (Paid) | Zayexa (Startup) | Sahiwal, Punjab, Pakistan | Hybrid | Jan 2025 – Sep 2026 | 1.5 Year

- Built responsive React.js & Next.js frontends for live client projects; converted UI designs into production-ready, cross-device responsive web pages.
- Integrated REST APIs to render dynamic frontend data; resolved UI bugs and improved consistency across deployed websites.
- Collaborated with senior developers on Git-based component-based architecture and version control best practices.
- Promoted to paid Junior Frontend Developer role (Jul 2025) after consistent performance and demonstrated frontend development expertise.

Frontend Intern | Dynamite Digital Institute (DDiT) | Sahiwal, Pakistan | On-site | Jul–Aug 2024 | 2 Months

- Designed and developed responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap framework.
- Translated UI/UX designs into functional, responsive web interfaces as part of structured frontend development internship.

PROJECTS

Tone Weaver — AI-Powered Voice & Accent Conversion Application | Final Year Project | Team of 3

Next.js | JavaScript | Tailwind CSS | shadcn/ui | REST API Integration | FastAPI Backend

- Served as Primary Frontend Developer — owned complete frontend lifecycle including UI architecture, component development, REST API integration, and iterative UX improvements.
- Built core application interfaces: voice conversion UI, audio upload/playback screens, and responsive landing page, fully integrated with FastAPI (Python) backend via REST APIs.
- Leveraged AI-assisted development workflows (Cursor AI) to accelerate implementation while maintaining complete ownership of code quality and technical decisions.

Personal Developer Portfolio — React.js, Modern UI, AI-Powered Development Workflow

- Designed and developed a professional portfolio website showcasing MERN Stack projects, technical skills, and professional experience.
- Built using AI-powered development workflows including prompt engineering, AI-assisted code generation, and hands-on refinement to deliver production-ready application.

EDUCATION & CERTIFICATIONS

Bachelor of Science — Computer Science Government College University Faisalabad (GCUF), Sahiwal Campus | 2022 – July 2026

Relevant Coursework: Web Engineering • Data Structures & Algorithms • Human-Computer Interaction • Software Engineering • Artificial Intelligence • Database Systems

Certifications: Responsive Web & Application Development (DDiT, May 2024) | Critical Thinking in the AI Era (HP LIFE, Jul 2026)
